### **What to Pack:**

Packing for college is an exciting time! You don't want to forget anything, so you pack up everything you own and buy anything you think may need. However, you must take into consideration that your roommate(s) will do the exact same thing. Here is a packing list of recommended things to bring, what you should share with your roommate(s) and what to leave at home. Don't feel like you need to purchase all of these items before you arrive on campus, there are stores in Thomasville that sell the items listed.
