ABOUT THE EVENT

Join us for the Geeks vs. Guardians 5K Fun Run, a fun-filled event bringing together military members, veterans, families, students, and the Thomasville community! Whether you're running, jogging, or walking, come out and support a great cause while having a blast with us.

ABOUT THE MILITARY LIFE CENTER

Thomas University is proud to serve area veterans. TU established the Center for Military Life to support area service members, veterans and their families. The Center provides a wide range of services to both community and student veterans alike. Through its partnership with the VA it provides counseling and medical referral access to members of the local community where veteran support services are hard to access. The Center for Military Life is a place for all veterans to come and get assistance applying for both education and disability benefits. Additionally it provides assistance in getting veterans back into the workforce through our local employer partnerships and internships for veteran students.

****Talon & Balfour sponsors will have logo on T-shirt and all pre-run marketing. Forbes & Rust sponsors will be listed on T-Shirt.**
